## A LOOK BEHIND THE CURTAIN: AN UNDERSTANDABLE GUIDE TO SPACE-TIME, PERCEPTION, AND CONSCIOUSNESS

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Ask someone What time is it? and the response will be without hesitation. However, ask What is time? and you will get a very different response. This and other perplexing topics are presented in three parts: Part 1 Space and Time, Part 2 Perception and Reality, and Part 3 Consciousness and Deity. As these titles possibly indicate, as this work progresses, it becomes increasingly conceptual and speculative. These six familiar words, space, time, perception, reality, consciousness, and deity, are all familiar and have common meanings that are used in everyday conversations. On the other hand, all six have less familiar, deeper meanings. These deeper meanings such as what is time and is space real are presented for the non-specialist in an informal and understandable manner. For example, common and natural time are considered, and then reconsidered to show that our notions about what time is are possibly wrong and that new ways of thinking about time are possible and even desirable. In a similar manner, the topics of space, perception, reality, consciousness, and deity are each considered and reconsidered in turn. Possibly, some things that now seem complex will be simplified and some things that seem simple will become more complex. Opening new doors into our world provides enrichment, which as a companion of knowledge, brings a greater appreciation for the complexity and wonder of our world. Portions of this book may be common knowledge to some, new and novel to some, and, possibly, completely absurd to some. I hope that not too many will have the latter experience. Of course, the same reader could have all three experiences.
