Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Bedtime stories are a big deal in my house. We have read our way through hundreds of stories and Crumble Tales is my attempt at filling some of the gaps that my children have noticed. Sally is the star - Apart from Crumble, her purple elephant, and she meets the worries and problems that most of the children I have worked with have experienced at some time. The tales are funny, meaningful and above all - real! Each of the stories has a base in something that has happened in our family. There may be a little exaggeration at some points. The stories are written to be shared and to give parents and teachers a platform to discuss the issues that children can really struggle with. Friendship, peer pressure and the difficult task of getting along with people. Even ones you don't really like all that much! Sally and Crumble go through the stories making choices. Some good - some not so good! I was keen to write using my experience as a teacher and an specialist in social- emotional work with children aged 4 to 11. I hope that Crumble Tales is fun to share and helps your children to think about the common worries of school and being nearly nine in different ways. Also - just to clarify. I do not find the way that Dad is treated by the rest of them very funny. If anyone wants to help poor Dad out. Please contact me, um, him and make suggestions. Thank you for looking at Crumble Tales.
