Is there a blueprint? What if you learned that your beliefs were the very cornerstones that supported success, and that some could give rise to success in certain areas but complete failure in others? Very few people today doubt the power of positive thinking. We all know that if we expect to fail, then that's inevitably what we get. There's also the issue of the mind-body connection-science is repeatedly demonstrating the power of belief to heal. What you hold to be true can and does have a huge impact on the quality of your life-from success in business to fulfilling relationships. But have you ever stopped to consider your own beliefs-to examine them and decide for yourself if they're serving you or sabotaging you? I Believe is a book that will not only inspire you, but will highlight the kinds of beliefs you hold that may be causing you to fail. In the process, it will provide you with the opportunity to choose, once again, what will drive your life.
