The Com-mittee also supports continued cooperation with other agencies, in-cluding the Department of Energy, to develop improved tech-nologies to better use this valuable domestic source of energy. Budget Criteria. - According to the Administration, the Corps budget request is a performance-based budget developed using ob-jective performance criteria. Within the Investigations account, funding was allocated based on continuing the highest performing studies and design, but the Committee has been unable to ascer-tain what objective measures qualify a study as high-performing. Construction funds were allocated based on a mix of factors in-cluding severity of dam safety problems, benefit-to-cost ratio, risk-to-life index, Endangered Species Act compliance, and cost-effective restoration of a nationally or regionally significant aquatic eco-system. Operation and Maintenance funds were allocated based on a mix of factors including tonnage movements, risk and con-sequences assessment, and visitation at recreation sites. It is en-tirely unclear, though, how any of these factors were ranked or weighted during development of the budget. Most concerning is the fact that these metrics were applied almost exclusively to those studies and projects proposed for funding in a previous budget re-quest. In other words, the hundreds of studies and projects pre-viously funded by congressional direction were not even eligible to compete for inclusion in the Presidents budget. While this exclu-sion is not new this year, or even with this Administration, it nev-ertheless casts significant doubt on the true objectivity of the budg-et development process. Account Details. - The budget request for the Investigations...
